# IHI Open School Basic Certificate in Quality & Safety

- Earning the [Basic Certificate in Quality and Safety](#) boosts your knowledge and skills — and proves that you are serious about changing health care for the better. To receive the Certificate, you must complete the following 13 Open School courses: *QI 101–Q105, PS 101–105, TA 101, PFC 101, and L 101*

## Improvement Capability

- QI 101: Introduction to Health Care Improvement
- QI 102: How to Improve with the Model for Improvement
- QI 103: Testing and Measuring Changes with PDSA Cycles
- QI 104: Interpreting Data: Run Charts, Control Charts, and Other Measurement Tools
- QI 105: Leading Quality Improvement

## Patient Safety

- PS 101: Introduction to Patient Safety
- PS 102: From Error to Harm
- PS 103: Human Factors and Safety
- PS 104: Teamwork and Communication in a Culture of Safety
- PS 105: Responding to Adverse Events

## Triple Aim for Populations

- TA 101: Introduction to the Triple Aim for Populations

## Person- and Family-Centered Care

- PFC 101: Introduction to Person- and Family-Centered Care

## Leadership

- L 101: Introduction to Health Care Leadership

# ***IHI Open School Activities***

---

- **In addition to its online courses, the IHI Open School offers a free library of activities — videos, case studies, games and exercises, patient stories, and other learning opportunities to further your knowledge of health care improvement**
- **These versatile educational resources — which include learning objectives, discussion questions, and Facilitator Guides — are great for independent learners or for learning in groups with inter-professional colleagues**
- **Consider:**
  - **Combining activities with related IHI Open School courses to build a robust Quality Improvement curriculum**
  - **Bringing a favorite case study to share at your next meeting**
  - **Using the video library on the go for just-in-time training**
